Reliable solution for empty cabin detection

Know instantly if a cabin's free — CabSens makes it happen. This real-time insight enables smarter, safer, and more efficient elevator usage across various scenarios.

Penthouse residents can be confident the cabin is empty before calling the elevator, ensuring privacy. **Banking institutions** can verify that vault elevators are unoccupied and secure at all times. **Emergency response centers** gain immediate awareness of cabin status during critical situations.

With CabSens, you are always on the safe side.
